

PERIODONTICS (PERIODONT)

PERIODONT 407.10 Periodontal Education and Communications Strategies (1 Units) Fall, Summer

Instructor(s): Robert Parr, Guo-Hao Lin

Prerequisite(s): None

Restrictions: First year PG Periodontology students.

Activities: Seminar

This didactic 2 quarter course will teach strategies to implement for patient communication, motivation, and compliance. Problems in interpersonal relationships with patients, employees, and referring dentists will be discussed with methods of successful resolution developed. Each student will be required to develop an office mission statement.

School: Dentistry

Department: Orofacial Sciences

May the student choose the instructor for this course? No

Does enrollment in this course require instructor approval? No

Course Grading Convention: P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory)

Graduate Division course: No

Is this a web-based online course? Yes

Is this an Interprofessional Education (IPE) course? No

May students in the Graduate Division (i.e. pursuing Master or PhD) enroll in this course? No

Repeat course for credit? Yes

PERIODONT 411.01 Introduction to Postgraduate Periodontology, Part 1 (1.5 Units) Summer

Instructor(s): Guo-Hao Lin, Gary Armitage, Robert Parr, Mark Ryder,

Yogalakshmi Rajendran, Yu-Ting Yeh

Prerequisite(s): None.

Restrictions: Enrollment in the first year of the Postgraduate Program in Periodontology

Activities: Lecture

In this Summer quarter introductory didactic course to the periodontal specialty, the postgraduate student will receive core information and training on the biological basis and clinical approaches for the diagnosis and treatment of periodontal diseases and for implant therapy prior to commencing further coursework and patient care. Instruction is primarily focused on students gaining knowledge of periodontal principles and their application to clinical care.

School: Dentistry

Department: Orofacial Sciences

May the student choose the instructor for this course? No

Does enrollment in this course require instructor approval? No

Course Grading Convention: P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory)

Graduate Division course: No

Is this an Interprofessional Education (IPE) course? No

May students in the Graduate Division (i.e. pursuing Master or PhD) enroll in this course? No

Repeat course for credit? No

PERIODONT 411.02 Introduction to Advanced Periodontology, Part 2 (1.5 Units) Fall

Instructor(s): Guo-Hao Lin, Gary Armitage, Robert Parr, Mark Ryder,

Yogalakshmi Rajendran, Yu-Ting Yeh

Prerequisite(s): Periodont 411.01

Restrictions: Enrollment in the first year of the periodontology postgraduate program

Activities: Seminar

In this Fall Quarter introductory course, the postgraduate student receives instruction on core information for the biological basis of the diagnosis, treatment, and assessment of periodontal diseases and Implant Dentistry. The overall objective of the course is to build on information provided in the summer quarter to move student beyond introductory periodontal principles to learning basic procedures, surgical strategies and preparation of models and other data records for surgery planning.

PERIODONT 411.03 Introduction to Advanced Periodontology, Part 3 (1.5 Units) Winter

Instructor(s): Guo-Hao Lin, Gary Armitage, Robert Parr, Mark Ryder,

Yogalakshmi Rajendran, Yu-Ting Yeh

Prerequisite(s): Periodontology 411.01, Periodontology 411.02

Restrictions: Enrollment in the first year of the periodontology postgraduate program

Activities: Lecture

In this Winter Quarter introductory course, the postgraduate student continues to receive instruction on core information for the biological basis of the diagnosis, treatment, and assessment of periodontal diseases and Implant Dentistry. This course includes instruction on the theoretical aspect of different surgical and non surgical techniques.

PERIODONT 413 Contemporary Periodontal Topics (1 Units) Fall, Winter, Spring, Summer

Instructor(s): Guo-Hao Lin

Prerequisite(s): N/A

Restrictions: Enrollment in the first year of the postgraduate periodontology program.

Activities: Seminar

This year long didactic course complements the 411 series to move student beyond understanding introductory periodontal principles so they can start applying these principles to clinic care: using basic procedures, non-surgical strategies and preparing data records for treatment planning and therapeutic procedures based on relevant literature and clinical experience. Emphasis and expectations will shift each quarter as student advances in acquisition and demonstration of knowledge.

PERIODONT 414 Sedation in Dental Practice (4 Units) Summer

Instructor(s): Guo-Hao Lin

Prerequisite(s): DDS/DMD Degree, Residency Status

Restrictions: Residents

Activities: Lecture

This course provides 40 hours of didactic instruction in minimal and moderate sedation. It is designed in accordance with the American Dental Association's Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students. It will focus on preparation of sedation device and administration of controlled substances to achieve an ideal level of conscious sedation.

School: Dentistry

PERIODONT 415 Sedation in Dental Practice: AAP,Grand Rounds,Emergency Prot (2 Units) Fall, Winter, Spring, Summer

Instructor(s): Guo-Hao Lin

Prerequisite(s): DDS/DMD Degree, Residency Status

Restrictions: Residents

Activities: Lecture

This course provides 20 hours of didactic instruction in minimal and moderate sedation. It is designed in accordance with the American Dental Associations Guidelines for Teaching Pain Control and Sedation to Dentists and Dental Students. It will focus on identifying and managing various emergency scenarios and protecting patient safety.

PERIODONT 419.01 Clinical Periodontics (6 Units) Summer

Instructor(s): Guo-Hao Lin
Prerequisite(s): None

Restrictions: Enrollment in 1st year of the postgraduate periodontology program.

Activities: Clinical

This clinical clerkship provides a comprehensive experience in evaluation and provision of periodontal care using non surgical periodontal procedures. Residents are expected to apply their knowledge of basic procedures, non-surgical strategies and preparing data records for treatment planning and performing therapeutic procedures. Emphasis and expectations shift each quarter as student advances.

PERIODONT 429.01 Advanced Clinical Periodontics (6 Units) Summer

Instructor(s): Guo-Hao Lin

Prerequisite(s): Completion of Perio 419.04

Restrictions: Enrollment in second year of the postgraduate periodontology program

Activities: Clinical

This clinic experience provides advanced training in providing clinic care to patients requiring periodontal surgical treatment. Students are expected to apply their knowledge of diagnostic modalities, surgical procedures, and strategies to perform surgical procedures including management of periodontal diseases and simple implant placement. Emphasis and expectations shift each quarter as student advances.

School: Dentistry

PERIODONT 431 Periodontal Practice Management (1 Units) Winter, Spring

Instructor(s): Robert Parr, Guo-Hao Lin
Prerequisite(s): Enrollment in the third year of the postgraduate program in periodontology at the University of California, School of Dentistry

Restrictions: Successful completion of all didactic and clinical courses in periodontology in the first two years of the postgraduate program in periodontology. Enrollment restricted to 3rd year students in the postgraduate program in periodontology

Activities: Lecture

In this required 2 quarter didactic course for third year postgraduate students in the postgraduate program in periodontology, students learn about the principles of starting a periodontal practice including legal, financial, and regulatory issues.

School: Dentistry

Department: Orofacial Sciences

PERIODONT 432 Periodontology Literature Review (2 Units) Fall, Winter, Spring

Instructor(s): Gary Armitage
Prerequisite(s): None.

Restrictions: Course only open to postgraduate students enrolled in the first or second year of the postgraduate program in Periodontology, School of Dentistry.

Activities: Seminar

Postgraduate students act as discussion group leaders for 60 assigned topics over 2 years (6 terms). Course has total of 12 units (2 hours a week; 20 hours/2 units per quarter). With faculty mentor guidance, students review the literature, develop a seminar outline/objectives, and lead group discussions. Emphasis is placed on developing the skills necessary for critical analysis of periodontal and associated biomedical literature.
