

NURSING SKILLS LAB (SKILLS LAB)

SKILLS LAB 413.04 PMHNP Advanced Health Assessment Skills Lab (1 Units) Fall, Winter, Spring

Instructor(s): Jane Abanes, Katerina Melino

Prerequisite(s): None.

Restrictions: Psychiatric Mental Health nursing students.

Activities: Lab skills

An immersive, interactive lab experience that provides students with foundational skills for therapeutic relationship building and diagnostic interviewing. Using low-fidelity simulation, lab will develop psychiatric interviewing skills, motivational interviewing, and diagnostic reasoning.

School: Nursing

Department: Community Health Care Systems

May the student choose the instructor for this course? No

Does enrollment in this course require instructor approval? No

Course Grading Convention: P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory)

Graduate Division course: No

Is this a web-based online course? No

Is this an Interprofessional Education (IPE) course? No

May students in the Graduate Division (i.e. pursuing Master or PhD)

enroll in this course? Yes

Repeat course for credit? Yes

SKILLS LAB 413.10 Family Health Care Skills Lab (1 Units) Fall

Instructor(s): Lisa Mihaly

Prerequisite(s): None.

Restrictions: Consent of instructor.

Guided clinical laboratory experience designed to develop mastery of advanced health assessment skills.

School: Nursing

Department: Family Health Care Nursing

May the student choose the instructor for this course? No

Does enrollment in this course require instructor approval? No

Course Grading Convention: Letter Grade

Graduate Division course: No

Is this a web-based online course? No

Is this an Interprofessional Education (IPE) course? No

May students in the Graduate Division (i.e. pursuing Master or PhD)

enroll in this course? Yes

Repeat course for credit? No

SKILLS LAB 413.10A Advanced Practice Nursing Primary Care Procedures Lab (0.5 Units) Winter

Instructor(s): Becca Neuwirth

Prerequisite(s): None

Restrictions: No restrictions

Activities: Lab skills

In this course, through a series of labs, advanced practice nursing students will engage in hands-on experience performing a variety of common primary care procedures including, but not limited to, microscopy, long-acting reversible contraceptive methods, and outpatient dermatology procedures. Students will learn indications, risks, benefits, and alternatives of the various procedures; patient management; and patient follow-up.

Graduate Division course: No

Is this a web-based online course? No

Is this an Interprofessional Education (IPE) course? No

May students in the Graduate Division (i.e. pursuing Master or PhD)

enroll in this course? Yes

Repeat course for credit? No

SKILLS LAB 413.11 Advanced Practice Nursing Skills Lab in Pediatrics (1-2 Units) Fall

Instructor(s): Bridget Gramkowski, Mary Gallagher

Prerequisite(s): Concurrent enrollment in N270

Restrictions: Adv. Practice Ped. Nursing, Acute Cre Ped. Nurse

Practitioner student or consent of instructor.

Activities: Lab skills

Course provides groundwork for advanced nursing practice health assessment skills, procedures, and history taking through practice in both the laboratory and clinical settings with a focus on the pediatric population.

School: Nursing

Department: Family Health Care Nursing

May the student choose the instructor for this course? No

Does enrollment in this course require instructor approval? No

Course Grading Convention: Letter Grade, P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory)

Graduate Division course: No

Is this a web-based online course? Yes

Is this an Interprofessional Education (IPE) course? No

May students in the Graduate Division (i.e. pursuing Master or PhD)

enroll in this course? Yes

Repeat course for credit? Yes

SKILLS LAB 413.12 Neonatal Skills Lab (1 Units) Fall

Instructor(s): Amy Renfro, Chrissy Smith
Prerequisite(s): None.

Restrictions: Consent of instructor.

Activities: Lab skills

This skills lab will prepare the advanced practice registered nurse (APRN) to plan for and provide care for neonatal patients across neonatal care settings, from convalescence through acute illness. Integration of theoretical concepts with neonatal physiology and pathophysiology will be supported through interactive exercises that develop assessment and management skills necessary for practice in the neonatal care setting. Development of skills in neonatal procedures.

Repeat course for credit? No

SKILLS LAB 413.13 Advanced Skills Application in Acute Care Pediatrics (1 Units) Winter

Instructor(s): Brittany Christiansen
Prerequisite(s): Concurrent enrollment in NURSING 255.06 or instructor approval.

Restrictions: Course enrollment is limited to ACPNP students or approval of the FOR.

Activities: Lab skills

This course provides students with the opportunity to obtain basic and advanced diagnostic and psychomotor skills for evaluation and management of infants, children, and adolescents with complex acute, chronic, and critical illness. Emphasis is placed on applying evidence-based practice concepts related to information gathering, advanced physical assessment, patient presentation, and procedural skills across the spectrum of pediatric acute care.

May students in the Graduate Division (i.e. pursuing Master or PhD) enroll in this course? Yes

Repeat course for credit? No

SKILLS LAB 413.15A Skills Lab for Sexual, Reproductive and Gender Health (0.5-2 Units) Fall, Winter, Spring, Summer

Instructor(s): Staff
Prerequisite(s): NSL 413.10

Restrictions: Must be enrolled in the Nurse-Midwifery specialty.

This laboratory course focuses on development of necessary clinical and communication skills for safely and respectfully providing high quality nurse-midwifery care. Student skill development will be specific to advanced practice management in outpatient and inpatient settings, including procedures requiring both technical skill and communication skill.

School: Nursing

Department: Family Health Care Nursing

Repeat course for credit? Yes

SKILLS LAB 413.20A Acute Care Nurse Practitioner Health Assessment Skills Lab (1 Units) Fall

Instructor(s): Scott Weyland
Prerequisite(s): None.

Restrictions: Adult Gerontological Acute Care Nurse Practitioner students only.

Activities: Lab skills

Course provides an opportunity to apply theory in clinical practice to further develop skills and to extend clinical expertise in selected aspects of physiological nursing. Guided clinical laboratory experience designed to develop mastery of advanced physical assessment and exam skills.

School: Nursing

Department: Physiological Nursing

May the student choose the instructor for this course? No

Does enrollment in this course require instructor approval? No

Course Grading Convention: P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory)

Graduate Division course: No

May students in the Graduate Division (i.e. pursuing Master or PhD) enroll in this course? Yes

Repeat course for credit? No

SKILLS LAB 413.25B Clinical Electrocardiography Skills Lab (1 Units) Spring

Instructor(s): Michele Pelter

Prerequisite(s): Concurrent enrollment in N225

Restrictions: Requires instructor approval.

Activities: Web work

Case-based learning on how to interpret standard 12-lead electrocardiograms and rhythm strips to enhance clinical decision-making.

School: Nursing

Department: Physiological Nursing

May the student choose the instructor for this course? No

Does enrollment in this course require instructor approval? No

Course Grading Convention: P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory)

Is this an Interprofessional Education (IPE) course? No

May students in the Graduate Division (i.e. pursuing Master or PhD) enroll in this course? Yes

Repeat course for credit? No

SKILLS LAB 413.29 Adult-Gero Clinical Nurse Specialist Health Assessment (1 Units) Fall

Instructor(s): Denise Li

Prerequisite(s): None

Restrictions: None\r\n

Activities: Lab skills

Guided learning activity to develop advanced nursing practice health assessment and physical examination skills. Learners practice various health and physical assessments of adults and older adults with a focus on differentiating normal from abnormal findings.

School: Nursing

Department: Physiological Nursing

May the student choose the instructor for this course? No

Does enrollment in this course require instructor approval? No

Course Grading Convention: P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory)

Graduate Division course: No

Is this a web-based online course? No

Is this an Interprofessional Education (IPE) course? No

May students in the Graduate Division (i.e. pursuing Master or PhD) enroll in this course? Yes

Repeat course for credit? No

SKILLS LAB 413.50 Behavioral Approaches for Diabetes Across the Lifespan Lab (1 Units) Spring

Instructor(s): Carolina Noya

Prerequisite(s): Must be concurrently enrolled in didactic course (N296B) Behavioral Approaches for Diabetes Across the Lifespan

Restrictions: Limited to 20

N301.50 Behavioral Approaches for Diabetes Management Across the Lifespan. Course focuses on the complex behavioral, educational, and family skills required to support patients in living with diabetes. The lab focuses on student skill development in varied forms of behavioral and family intervention (e.g. motivational interviewing; coping skills training, problem-solving interventions, behavioral goal setting and follow-up).

School: Nursing

Department: Family Health Care Nursing

Repeat course for credit? No

SKILLS LAB 420 Family Health Care Advanced Health Assessment Skills Lab (1 Units) Winter

Instructor(s): Staff
Prerequisite(s): None

Restrictions: Open to PB-DNP students or with consent of instructor

The course focuses on performance of systematic health assessment throughout the lifespan, leading to a growing ability to differentiate between normal and abnormal findings. Students will identify and acknowledge the impact of stressors that arise from physical, social, developmental, and occupational sources. The course will utilize simulation-based activities to support the application of health assessment concepts and skills.

SKILLS LAB 430 PMHNP Behavioral Health Skills Lab (1 Units) Winter

Instructor(s): Staff
Prerequisite(s): None

Restrictions: Open to PB-DNP students or with consent of instructor

Activities: Workshop, Lab skills

This course is an immersive, interactive lab experience that provides PMHNP students with foundational skills for therapeutic relationship building and diagnostic interviewing. It introduces the student to self-reflective practice and principles of psychotherapeutic care. Students will learn techniques for establishing a therapeutic alliance with individuals across the lifespan. Using simulation techniques, students will develop skills in psychiatric interviewing and diagnostic reasoning.

SKILLS LAB 440A Adult Gerontology Advanced Health Assessment Skills Lab (1 Units) Spring

Instructor(s): Staff
Prerequisite(s): None

Restrictions: Open to PB-DNP students or with consent of instructor

Activities: Lab skills

This skills lab course develops clinical skills to expand expertise in selected aspects of advanced practice nursing. Didactic evaluation along with guided clinical laboratory experiences and return demonstrations are designed to develop mastery of advanced physical assessment examination techniques and skills focusing on normal to identify abnormal.
