DEN PUB HL 200 Ethical Considerations in Clinical & Public Health Dentistry  (2 Units) Winter
Instructor(s): Enihomo M Obadan-Udoh
Prerequisite(s): None
Restrictions: Enrollment in a dental postgraduate specialty program or the Oral and Craniofacial Sciences graduate program, except with the permission of the instructor.
Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects

This is a classroom based course, using lectures, case studies and interactive learning strategies geared towards stimulating discussions on dental ethical dilemmas and arguments for both sides of the conversation. Each student must remain current by attending and participating with each weekly session and complete associated assignments within the period described. Students will meet once a week for a classroom based session with the instructor.

Repeat course for credit? Yes

DEN PUB HL 410 Dental Public Health Core and Contemporary Topics Seminar (1-4 Units) Fall, Winter, Spring, Summer
Instructor(s): George Wesley Taylor, Stuart A. Gansky, Lisa H. Berens, Cristin E Kearns, Howard F. Pollick, Alfa-Ibrahim M Yansane, Benjamin W Chaffee, Elizabeth A Mertz, Enihomo M Obadan-Udoh
Prerequisite(s): none
Restrictions: Enrollment in the Dental Public Health Postgraduate Program.
Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion

This course will equip DPH postgraduate students with the core and contemporary knowledge expected of a DPH specialist as outlined by the American Board of Dental Public Health (ABDPH). Students shall create a 12-month reading plan of recommended textbooks, draft and submit critical summaries of the assigned chapter readings every month. Every week, students shall present a core DPH topic and detailed critique of recent publications from peer-reviewed journals to course instructors.

DEN PUB HL 420 Dental Public Health Field Site Experience (10 Units) Fall, Winter, Spring, Summer
Instructor(s): Enihomo M Obadan-Udoh, Susan A Fisher-Owens
Prerequisite(s): No

Restrictions: Enrollment limited to postgraduate students enrolled in the UCSF Dental Public Health Residency Program.

Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion

The Dental Public Health Field Site Experience course is designed to provide postgraduate students with targeted experiential learning in a real-world public health department/community-based setting under the supervision of the DPH program director or a member of the UCSF faculty. It builds upon the core DPH knowledge gained in the classroom and equips students with practical skills to fulfill the DPH competencies outlined by the American Board of Dental Public Health (ABDPH).

DEN PUB HL 430 Quality Improvement in Dental Care Settings (6 Units) Fall, Winter, Spring, Summer
Instructor(s): Cristin E Kearns, Enihomo M Obadan-Udoh, Susan A Fisher-Owens
Prerequisite(s): None

Restrictions: Limited to students enrolled in the Dental Public Health Residency Program and others per Instructor approval.

Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion

This course introduces concepts needed to implement and evaluate quality improvement projects in a dental practice setting. Students will learn how to use the Model of Improvement developed by the Dental Quality Alliance and the basic steps for an improvement project: set an aim, select measures, develop ideas for changes, and test changes using Plan-Do-Study-Act (PDSA) cycles. Students will complete either a clinical or operational quality improvement project at a field site location.

DEN PUB HL 440  Introduction to Dental Public Health (2 Units) Fall
Instructor(s): Kristin S Hoeft, Enihomo M Obadan-Udoh, Lisa H. Berens, Cristin E Kearns
Prerequisite(s): N/A
Restrictions: Enrollment in a dental postgraduate specialty program (e.g., dental public health or pediatric dentistry residency program) or by permission of course director
Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion

The purpose of this didactic course is to introduce learners to core dental public health theories, principles and approaches, including: Social Determinants of Oral Health, Oral Health Literacy, Oral Health Promotion, Patient-Provider Communication, Cultural Competency, and Oral Health Policy and Advocacy. Each student will create an individual presentation that applies the principles of the dental public health to a theoretical or actual application.

DEN PUB HL 475  Dental Public Health Lecture Series (1 Units) Fall, Winter, Spring
Instructor(s): George Wesley Taylor, Howard F. Pollick, Enihomo M Obadan-Udoh
Prerequisite(s): None
Restrictions: None
Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion

The Dental Public Health Lecture Series covers various topics including access to and quality of dental care, community-based preventive dentistry, dental public health programs and evidence-based dental public health services. Postgraduate students will use the information to help fulfill the Dental Public Health Competencies for Dental Public Health Specialists. Specific content of each lecture will be topical and presented by invited guest lecturers from around California and the country.
