HISTORY OF HEALTH SCIENCES (HIST HL SC)

HIST HL SC 200A Introduction to the History of Health Sciences (2-4 Units) Fall

*Instructor(s):* Staff

*Prerequisite(s):* None.

*Restrictions:* None.

*Activities:* Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion

This introductory course is a general survey of the history of Western medicine from antiquity to the early nineteenth century for students entering the M.A. and Ph.D. programs in the History of the Health Sciences. It explores key conceptual developments and practices of the past, situating healing systems within their cultural and social contexts. The course has a strong historiographical emphasis, comparing and contrasting approaches to episodes in the history of medicine.

*School:* Graduate Division

*Department:* History Of Health Sciences Program

Does enrollment in this course require instructor approval? Yes

Course Grading Convention: Letter Grade

Graduate Division course: Yes

Is this a web-based online course? Yes

Is this an Interprofessional Education (IPE) course? Yes

May students in the Graduate Division (i.e. pursuing Master or PhD) enroll in this course? Yes

HIST HL SC 200B Introduction to History of Health Sciences (2-4 Units) Winter

*Instructor(s):* Aimee L Medeiros, Laurel J Waycott, Dorothy E Porter, Brian Dolan

*Prerequisite(s):* 200A

*Restrictions:* None.

*Activities:* Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion

Continuation of 200A. This course presents a general survey from 1800 to the present, with the primary focus on Europe and the US. Topics include: the rise of scientific medicine; the significance of germ theory; the development of medical therapeutics and technologies; the growth of health care institutions; the evolution and specialization of the medical profession.

HIST HL SC 201A Disease and the Social Order from Black Death to Covid (2-4 Units) Fall, Spring

*Instructor(s):* Dorothy E Porter

*Prerequisite(s):* None.

*Restrictions:* None.

*Activities:* Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion

The course explores the comparative impact of disease upon European and North American societies. It will concentrate on the historical junctures at which diseases occurred; unravel the various levels of meaning which surrounded them in terms of their social, moral, and political interpretations; and analyze the patterns of response to them and discuss their historical consequences.

HIST HL SC 213 Disability History (4 Units) Fall  
**Instructor(s):** Aimee L. Medeiros  
**Prerequisite(s):** None  
**Restrictions:** None  

**Activities:** Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion  

This course examines disability’s presence in the past and its absence from the historiography. We will explore the development of disability as an administrative category as it relates to nation-building, medicine, international relations, and citizenship. We will also explore the history of disability as a lived-experience. Topics include: the history of the ‘normal’ body, the development of the Veteran’s hospital system, and the relationship between reproductive rights and disability.

HIST HL SC 215 Crafting the Dissertation Prospectus (2 Units) Spring  
**Instructor(s):** Brian Dolan  
**Prerequisite(s):** None  
**Restrictions:** None  

**Activities:** Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion  

This course, based on a combination of lectures, seminar presentations, and archival investigation, guides students through the process of developing the dissertation prospectus. This document outlines and describes the dissertation topic, hypothesis, provides literary meta-analysis, describes archival sources to be investigated, and proposes the chapter organization. Students will provide peer-review critique of each prospectus.

HIST HL SC 220 The Anatomy of an Archive (4-5 Units) Fall, Winter, Spring  
**Instructor(s):** Staff  
**Prerequisite(s):** Consent of instructor  
**Restrictions:** none  

**Activities:** Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion  

This course provides an overview of the archival science, the emphasis will be made on the theory, methodology, and best practices of archival research, arrangement and description. Coursework includes review of literature and discussion of relevant technologies. Upon completion of this course, students will master comprehension of archival concepts, become familiar with the archival terminology, understand the principles, history, and theory of archives.
