OBSTETRICS, GYNECOLOGY, AND REPRODUCTIVE SCIENCE (OB GYN R S)

OB GYN R S 110  Ob/Gyn Core Clerkship  (2-9 Units)  Fall, Winter, Spring, Summer
Instructor(s): Jeannette C Lager, Naomi E Stotland
Prerequisite(s): Third-year standing.
Restrictions: UCSF 3rd and 4th year medical students only.
Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects
The student will provide antepartum, intrapartum, and postpartum care of pregnant women, demonstrating competency on how to do a vaginal delivery under supervision. The student will participate in the operating room with ambulatory as well as major surgeries. The student will work with faculty preceptors and will demonstrate competency in the well woman exam, contraceptive counseling and osteoporosis counseling.

School: Medicine
Department: Obstetrics, Gynecology And Reproductive Science
May the student choose the instructor for this course? No
Does enrollment in this course require instructor approval? No
Course Grading Convention: P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory), In Progress (IP, SP,UP) grading allowed
Graduate Division course: No
Is this a web-based online course? No
Is this an Interprofessional Education (IPE) course? No
May students in the Graduate Division (i.e. pursuing Master or PhD) enroll in this course? No
Repeat course for credit? Yes

OB GYN R S 130.01 CIEx -Surgical Gynecology Clinician Educator Apprenticeship  (1.5-3 Units)  Fall, Winter, Spring, Summer
Instructor(s): Jeannette C Lager
Prerequisite(s): Students interested in this CIEx must receive approval from Dr. Lager prior to enrollment.
Restrictions: Medical Students in Foundations 2
Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects, Lab skills, Lab science, Conference, Discussion
This is a Bridges Curriculum Clinical Immersive Experience (CIEx), which provide medical students in Foundations 2 opportunities to broaden and enhance their professional development in health care settings different from those of their core clerkships. This course is designed for students who are interested in exploring a career as an OB/GYN clinician educator. Students will work closely with 1-2 clinician educator attendings, including going to the OR and/or clinics, and working on projects.

School: Medicine

OB GYN R S 170.13 Introduction to High Value Care (1 Units) Winter
Instructor(s): George F. Sawaya, Jeannette C Lager
Prerequisite(s): None
Restrictions: None
Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects

This course will be an introduction to the ideas of overuse and healthcare value for early career health professional students. This course will give students tools to identify low value care, elicit patient preferences and hold productive conversations with superiors about appropriate patient care. Each week, the course will host a speaker on a topic related to overuse and present a case study related to that topic. Finally, all students will be asked to create a capstone project.

OB GYN R S 170.14 Womens Health, Environment, Health Professional Activism (1 Units) Fall, Winter
Instructor(s): Jeannette C Lager, Bob Gould
Prerequisite(s): None
Restrictions: None
Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects

Students will learn how environmental toxins and climate change disproportionately affect women’s health while also harming population health and perpetuating health inequality. Topics will include prenatal counseling about environmental hazards, impacts of these hazards throughout the lifespan, health effects of agricultural policy, and examples of provider environmental activism. Students will leave the course with knowledge of how environmental hazards disproportionately affect women.

OB GYN R S 198 Supervised Study (1-6 Units) Fall, Winter, Spring, Summer
Instructor(s): Staff
Prerequisite(s): Consent of instructor.
Restrictions: None
Activities: Lecture, Seminar, Clinical, Fieldwork, Independent Study, Project, Web work, Workshop, Practical Experience, Special Projects

Library research and directed reading under supervision of a member of the faculty with the approval of the chairperson of the department.
