

PATIENT-CENTERED CARE (PT CN CARE)

PT CN CARE 101 Community Clinics Externship Course (0-8 Units)

Offered In: Fall, Winter, Summer

Instructor(s): Gurrinder Atwal

Prerequisite(s): PT CN CARE 130WI, PT CN CARE 130SP

Restrictions: 4th-year dental student

Activities: Clinical

This course provides students an opportunity to advance their clinical practice ability while engaging an important group of patients in a community clinic. Students will be integrated into an oral health care delivery team in an underserved community, providing primary dental care to a diverse patient pool, including individuals who are healthy and sick, young and old.

School: Dentistry

Department: Preventive And Restorative Dental Sciences

May the student choose the instructor for this course? No

Does enrollment in this course require instructor approval? No

Course Grading Convention: P/NP (Pass/Not Pass) or S/U (Satisfactory/Unsatisfactory), In Progress (IP, SP/UP) grading allowed

Graduate Division course: No

Is this a web-based online course? No

Is this an Interprofessional Education (IPE) course? No

May students in the Graduate Division (i.e. pursuing Master or PhD) enroll in this course? No

Repeat course for credit? No

PT CN CARE 102A Clinical Fixed Prosthodontics and Implants I (1 Units)

Offered In: Fall, Winter, Spring, Summer

Instructor(s): Natalie Hastings, Rishabh Acharya

Prerequisite(s): none

Restrictions: D3

Activities: Clinical

In this course, students will apply the knowledge and skills gained in didactic and simulation courses to provide supervised direct patient care in the diagnosis, treatment planning, and provision of fixed prosthodontic care as part of the patient's overall comprehensive dental care. This includes onlays, crowns, bridges, and implant restorations.

PT CN CARE 102C Clinical Fixed Prosthodontics and Implants II (1 Units)

Offered In: Fall, Winter, Spring, Summer

Instructor(s): Natalie Hastings, Rishabh Acharya

Prerequisite(s): none

Restrictions: D4 or ID4

Activities: Clinical

In this course, students will continue to apply the knowledge and skills gained in didactic, simulation, and early clinical courses to provide supervised direct patient care in the diagnosis, treatment planning, and provision of fixed prosthodontic care as part of the patient's overall comprehensive dental care. This includes onlays, crowns, bridges, and implant restorations.

PT CN CARE 103 Clinical Orthodontic Rotation (0-1 Units)

Offered In: Fall, Summer

Instructor(s): Snehlata Oberoi

Prerequisite(s): none

Restrictions: DDS 3rd year student

Activities: Seminar, Clinical, Independent Study

In this course, you will learn why patients seek orthodontic treatment, how to identify malocclusions, how to work up a patient for orthodontic treatment, basic treatment modalities, when to refer, and how orthodontics interfaces with general dentistry, as well as dental and medical specialties.

School: Dentistry

Department: Orofacial Sciences

PT CN CARE 105A Clinical Pediatric Dentistry Rotation I (0-2 Units)

Offered In: Winter, Spring

Instructor(s): Brent Lin, Ray Stewart, Ling Zhan

Prerequisite(s): none

Restrictions: Restricted to IDP and DDS 3rd year students.

Activities: Clinical, Lab science

In this third-year course, students will take patient histories, determine if there is a need to modify treatment based on medical or behavioral history, formulate treatment plans, and perform basic dental treatment for pediatric patients including oral evaluations, dental prophylaxis, sealants, and restorative care. Some students may also perform pulp therapy, extractions, or space maintenance.

School: Dentistry

PT CN CARE 106A Clinical Oral Medicine Rotation (0-1.5 Units)

Offered In: Fall, Winter, Spring, Summer

Instructor(s): Rashmi Mishra, Sivappiriyai Velupillai, Ava Wu

Prerequisite(s): None.

Restrictions: Third year dental students and fourth year IDP dental students.

Activities: Seminar, Clinical

Students shadow oral medicine faculty/residents/attendings to become familiar with the most common oral conditions, participating in patient intakes and workups and establishing differential diagnoses, working alongside postgraduate residents in Oral Medicine. They participate in various tests and procedures including clinical testing of microbial cultures, exfoliative cytology, and soft tissue biopsies.

PT CN CARE 109A Clinical Oral Surgery Rotation I (0-2.5 Units)

Offered In: Fall, Winter, Spring, Summer

Instructor(s): Jennifer Perkins

Prerequisite(s): none

Restrictions: Third year DDS student.

Activities: Seminar, Clinical, Workshop

A well-rounded general dentist has strong abilities to evaluate a patient's medical risk for elective and urgent dental care and identify higher-risk patients who require hospital based dental care or special needs. In this course, students participate in various clinical experiences to augment their understanding of hospital dentistry.

School: Dentistry

PT CN CARE 109C Clinical Oral Surgery Rotation II (0-4.5 Units)

Offered In: Fall, Winter, Spring, Summer

Instructor(s): Jennifer Perkins

Prerequisite(s): PT CN CARE 109A or PT CN CARE 109B

Restrictions: Fourth-year dental students.

Activities: Seminar, Clinical

Building upon the foundation of knowledge and skills attained in PT CN CARE 109A, students will perform basic oral surgical procedures within the scope of a general dentist, and identify when to refer patients for specialty care. This course will also reinforce patient evaluation, medical risk assessment, diagnosis, treatment planning, and local anesthesia technique.

PT CN CARE 111 Principles of Interprofessional Practice I (0-0.5 Units)

Offered In: Fall, Winter, Spring

Instructor(s): Lauren Gritzer

Prerequisite(s): none

Restrictions: D1

Activities: Project, Workshop

Contemporary health care involves teams to provide care to patients with a multitude of complex and chronic medical conditions. This course provides students an opportunity to learn about the roles of various members of the health care team, and how to effectively work in teams with members from other health professions. Specifically, this course includes the first three modules of the Core Principles of Interprofessional Practice for D1 students.

PT CN CARE 117 Introduction to Comprehensive Care I (2 Units)

Offered In: Fall

Instructor(s): Daniel Mendoza

Prerequisite(s): none

Restrictions: D1 DDS Student

Activities: Lecture, Seminar, Clinical

In this course, you will learn about infection control, history-taking, prescribing and interpreting radiographs, and developing rapport with your patients. Your learning in this course will be centered on developing the self-reflection skills necessary to practice a changing art and science through regular reflective assignments. These are critical foundational skills upon which students will build in the subsequent courses in the patient-centered care stream.

PT CN CARE 118 Introduction to Comprehensive Care II (2.5 Units)

Offered In: Winter

Instructor(s): Robert Ho

Prerequisite(s): none

Restrictions: D1 DDS Student

Activities: Lecture, Seminar, Clinical

Now that you have learned the basics of creating a safe, professional working environment you will build upon your skills by conducting various patient assessments. With a strong focus on prevention, you will perform an assessment of a classmate-patients oral hygiene, caries risk, and gingival condition, and create an individualized home care regimen. This course will also continue to guide the development of self-reflection necessary to maintain skills throughout practice.

PT CN CARE 119 Introduction to Comprehensive Care III (2.5 Units)

Offered In: Spring

Instructor(s): Robert Ho

Prerequisite(s): none

Restrictions: D1

Activities: Lecture, Clinical, Web work

The final course in the first-year PCC course provides further experience with electronic health records and tracking patient attainment of suggested self-care skills. Assessments learned prior will be employed in collaboration with an upperclassperson during assisting experiences with clinic patients. Students will also be asked to conduct a self-reflection exercise about their experiences and learning during the 1st year of dental school.

PT CN CARE 128 Introduction to Comprehensive Adult Dentistry (7.5 Units)

Offered In: Spring

Instructor(s): Jennifer Perkins

Prerequisite(s): Successful completion of the first three quarters of the 2nd year curriculum.

Restrictions: ID2, D2

Activities: Clinical, Independent Study, Project, Workshop

In this course, students enter clinic and begin to provide comprehensive general dentistry and introductory periodontal care to adults with diverse ethnic, linguistic, and socioeconomic backgrounds. Students will work independently under faculty supervision, with mentorship from senior dental students and with support and guidance from their Group Practice Leader (GPL). Students will conduct oral evaluations, derive diagnoses, formulate comprehensive treatment plans, perform general dentistry.

PT CN CARE 129 Introduction to Comprehensive Care IV (0-16.5 Units)

Offered In: Fall, Winter, Summer

Instructor(s): Nejleh Abed, Jennifer Perkins, Yogalakshmi Rajendran, Ramneek Rai, Joel White, Cristin Kearns

Prerequisite(s): None.

Restrictions: ID2, D2

Activities: Lecture, Seminar, Clinical, Fieldwork, Workshop

Students will continue developing their patient care skills, from the new patient visit to establishing continuing care, building on what was learned in the D1 year. This is a longitudinal course that spans three quarters. This is a clinical prep. course where students follow standards of care driven by the electronic health record workflows, provide direct patient care to their classmate patients and treat patients providing new patient visit, needed dental x-rays, comprehensive and period

PT CN CARE 130 Community-Based Learning Lectures I (0.5 Units)

Offered In: Fall

Instructor(s): Gurrinder Atwal

Prerequisite(s): All first- and second-year coursework

Restrictions: Third-year dentistry students

Activities: Lecture

Through a variety of lectures and assignments, students prepare to provide oral health care at community health centers located in underserved communities. This course (PCC130) is the first of two lecture courses designed to foster an appreciation for community service and provide an introduction to the externship experience with emphasis on the social determinants of health and cultural competency in providing dental care to a diverse patient pool.
